

SB 13-222 Aimed at increasing access to immunizations SB222 Committee working on a variety of initiatives

VaxCare Pilot

- Helping practices who are unable to afford the up-front cost of vaccines.
- Pilot with both private practices and local public health agencies

Provider Mentoring Program - Dr. Matthew Dorigi from Cherry Creek Pediatrics

- **Looking for up to five practices to trial this approach**
 - Will include on site training and practical tips
- CCP is successful at providing and billing for immunizations including both private and VFC vaccine
- Key principles for possible participation
 - Identify physician immunization champion and non-provider immunization champion
 - Office currently has flu shot clinics or provides flu shots
 - Participation in CIIS (willingness, waiting list ok)
 - Reimbursement or billing for immunizations currently an obstacle
 - Understand the importance of providing immunizations in the medical home

Anyone interested in either approach, please contact
