- ✓ Refresh on current best practices
- ✓ Decrease unnecessary referrals

SERIES TOPIC: COMPLEX CARE PEDIATRICS

Series begins **April 27, 2016** and meets once per month, **every 4th Wednesday** through October. Sessions are conducted via live video from your home or office during lunch hours, **12:00 - 1:00 p.m. MST.**

- Better assess and manage the care for children with medical complexity
- Create a shared care plan
- Engage with other types of providers involved in the care of a child with medical complexity
- Identify and share resources

WHAT TO EXPECT

Live web-based, video-conference sessions. Use your smart phone, tablet or laptop with a camera and click on the link we send you.

During each 60-minute session, a subject matter expert will lead a brief presentation. Participants then present a case for feedback, recommendations and discussion.

MEET YOUR INTERDISCIPLINARY TEAM

Facilitators: Karen Kelminson, MD and Sandy Whisler, MD.

Expert panelists to include:

- Behavioral health professionals
- Care coordinators
- Medical specialists
- Nutritionists
- Primary care providers
