

Start integrating behavioral health and primary care to help your practice achieve the Quadruple Aim. The Colorado State Innovation Model (SIM) can help your practice start down this path to integrate care and test alternative payment models.

## SIM Cohort 2 application available February 2017

Primary care practices selected to participate in SIM will receive considerable support including:

- A practice facilitator to guide your practice improvement team in ongoing change and quality improvement activities
- A clinical health information technology advisor to help your practice optimize technology and turn data into actionable information
- Access to a regional health connector, who connects your practice to relevant community and state resources
- Access to Medical Group Management Association's *DataDive*®, an online data benchmarking tool
- Additional technical assistance provided through highly-qualified practice transformation organizations and the University of Colorado
- Opportunity to earn achievement-based payments of up to \$13,000 for meeting key activities and milestones
- Apply for additional small grant funding of up to \$40,000 to support integration efforts
- Participate in twice-yearly collaborative learning sessions to earn maintenance of certification and continuing medical education credits
- Commitment from at least one payer to support your practice with a value-based payment model

### RSVP to attend an informational webinar:

Wednesday, Feb. 22  
7:30 AM - 8:30 AM
